

TRICOFLEX

Tricoflex® Flexible multilayer PVC hose

This high-quality PVC hose stands out due to very good UV and abrasion resistance as well as high flexibility. The multilayer structure guarantees excellent bending strength and kink resistance. Application areas are farms, vegetable growers, horticulture, gardening, water supply and delivery in industry, construction sites and road works.

Technical characteristics

Temperature range: -15 °C to +60 °C

Standard Length: 50 m

Colour: Yellow

Construction

Cover: Soft PVC

Reinforcement: Jersey fabric

Lining: Soft PVC, black

Inner-Ø mm	Wall thickness mm	WP bar	BP bar	Bending radius mm	Weight/m kg	Article no.
