

Security handle for hoses

THE HANDLE FOR HOSES

This security handle for hoses is a ground breaking safety tool for today's oil and gas industry and the environmental service industry. The easy to use mechanism enables you to clamp onto hose or pipe easily and allows you to safely grip, torque and release single-handedly through a natural fluid movement. The high quality nylon material guarantees a long durability, a high wear resistance and good heat insulation properties. Through mud, cold, rain or sleet, this innovative design allows your workers to safely and efficiently manipulate hoses and pipes in any climate or location. Suitable for drilling mud suction hoses, bio-waste pump out, tanker hoses, water pressure hoses, fire hoses.
