

## ToiVrac N-Set

### The protection set

This set offers you a high protection for sewer cleaning hoses. It prevents the sewer cleaning hose from abrasion during the insertion into the sewer tunnel. The set consists of one length of the polyethylene disposal hose with black synthetic cuffs on both sides, a 5m-length (optional 10m) betalone line, fixed with shrinkdown plastic tubing out of polyolefine.

### Technical characteristics

**Temperature range:** -40 °C to +60 °C

**Standard Length:** 1.00 m, 1.20 m | further lengths on request

**Colour:** Yellow-black

### Construction

**Material:** Polyethylene

Inner-Ø mm	Inner-Ø Inch	Material thickness mm	Article no.
51	2	1,40	92200-051
76	3	1,40	92200-076
102	4	1,40	92200-102
